

2010 Reflex 141

MSRP: \$429.00

Length: **142 cm**

Rocker Type: **Hybrid 3-Stage**

Rocker: **2.70 cm**

Skill Level: **Intermediate/Advanced, focused on rail park shredding**

DESCRIPTION:

The most progressive cable/rail riding board has been taken a step further.

Using the standard Future Response Technology™ (FRT) core construction, ABS sidewalls, a Dura Base™ bottom, and NEW Slide Rite™ (SR) chined rails, the Reflex has increased its already unmatched durability and performance.

Whether you're sliding the sketchy rail in your buddy's back yard or jibbing the concrete ledge of a spillway downtown, never again worry about catching or blowing out the edges of your board.

FEATURES & ADVANTAGES:

Future Response Technology™ – FRT = Lightweight, more durable core that offers controlled flex that evenly distributes an explosive energy burst when popping off the wake and on ollies, and absorbs shock on hard landings

Park Ready™ Tune = Ability to customize the board rails to desired shape

Dura Base™ = Most durable sliding base available

Slide Rite™ – SR Chined Rails = Makes catching or blowing out your board edges virtually impossible

Taperwall™ = Better edge control, added speed stability, sounder handling in rough water, and more impact resistant

Hybrid 3-Stage Rocker = Massive boosting pop with more speed

4-Hole = Superior boot to board connection

Handmade by Slingshot in the USA = Precision finished product using the highest quality materials

Slingshot legendary construction = Bomber quality
